STAYS DISTINCTLY BEAUTIFUL

To achieve this finish, these five neutral COLORBOND® steel colours have been enhanced using BlueScope's innovative Matt paint technology, creating a softer, more subtle look. This purely aesthetic change has been purposely designed to create a true Matt finish whilst retaining the durability you'd expect from COLORBOND® steel.

Tested for over a decade, COLORBOND® steel Matt has been designed to withstand our harsh Australian environment. The result is a product which maintains its Matt finish, looking even better for longer.
