# DEKS

Directions - Rapid Flash

1

Trim the rubber boot to suit pipe size. Ensure surface is clean and dry before application.

2

Remove the middle underside backing strip and slide the flashing
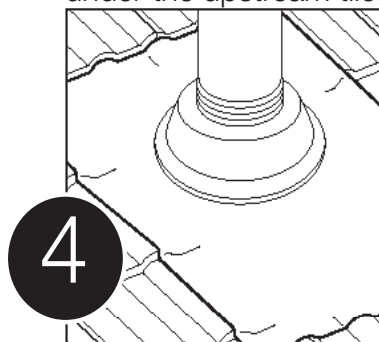

3

For tile roofs, remove the top backing strip and fold 5-10mm of the top of the flashing up over itself creating a dam and affix under the upstream tile.
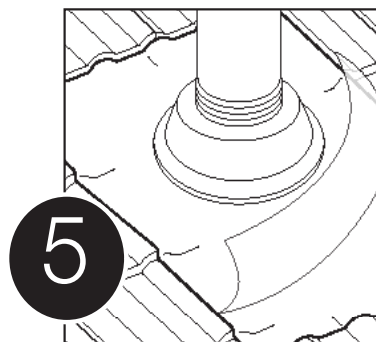

5-10mm

Metal Roofs

For metal roofs, remove the top backing strip and press down

4

Remove the bottom backing strip and dress the base down firmly,

5

To finish, remove the protective film on the top of the Rapid Flash
